

## Course Objectives

The objective of this course is that students achieve detailed skills regarding the systems, structures, operations, maintenance, repair and diagnosis of breakdowns detected in the aircraft, in conformity with maintenance information approved, so that the necessary maintenance tasks can be duly and safely performed in conformity with appendix III Annex III Part 66 of the Regulation EU 1321/2014 and subsequent amendments.

The successful completion of this training authorizes you to apply to the Competent Authority for an "endorsement" on the license.

Certification: EASA Duration  
Theoretical: 180 hours / 30 Days  
Duration Practical: 60 hours / 10 Days  
Language: English

Theoretical Price (DSL – Online): 2.200€  
Practical Price: 750 €  
Total Training Price: 2.950 €

## Theoretical

Content and training levels applicable in accordance with Appendix III Part 66 3.1 e). The course has a duration of 180 hours (30 training days). The examination will take place at the end of the course with a total of 6 exams.

## Practical

The goal is to acquire skills for safe aircraft maintenance, inspections, and daily tasks in compliance with manuals. Students will learn to perform tasks based on aircraft type, solve problems, make repairs, and use technical documents and tools. The practical course lasts 2 weeks with 6 hours per day.

## Addressed to

The target audience of this Type Training course are Aircraft Maintenance Technician professionals with a Part 66 license or equivalent license, who are willing to acquire the capability to certify Airbus A330 aircrafts with RR Trent 700 engine, also for staff who work on MCC, CAMO and engineering departments.
