

Airbus A330 Family (CEO & NEO) B1 + B2 CONTINUATION TRAINING

Course overview

This Continuation Training course for the Airbus A330 Family (CEO & NEO) is designed to maintain and refresh the competence of B1/B2 certifying staff in accordance with EASA Part-145 and Part-66 requirements.

It provides a structured annual technical update to ensure alignment with current fleet experience, regulatory developments and operational reliability considerations.

Adressed to

- Licensed B1 and B2 technicians
- Part-145 maintenance personnel
- Engineering & CAMO staff
- A330 type-rated certifying staff requiring continuation training compliance

Course details

- Duration: 12 hours
- Format: Self-study (updated training presentation) or instructor-led session (on request) *
- Language: English
- Certification: Certificate of Attendance
- **Price: 80.00 €**

Course Content

The course delivers a consolidated technical update based on recent in-service experience across the A330 fleet. It includes review and analysis of Airbus WISE publications, Technical Follow-Up (TFU) and In-Service Information (ISI), highlighting reliability trends and significant maintenance findings.

It also covers the latest applicable EASA Airworthiness Directives, focusing on operational and maintenance impact, as well as relevant fleet accidents and incidents

* For on-site training options, please contact us directly at 147@brok-air.com.
Please note: The indicated price applies exclusively to the online self-study format. Classroom or instructor-led sessions are available upon request and subject to a separate quotation.
